Full Stack Web Developer with expertise in JavaScript and TypeScript, crafting modern, scalable UIs using React, Tailwind CSS, and advanced animations (GSAP, Framer Motion). Passionate about performance optimization, user experience, and cross-team communication.

Professional Experience

- Foo Talent Group · Front-end Developer & Team Representative

Buenos Aires, Argentina — April 2025 – June 2025

• Coordinated across Product, Design, and Backend teams to align sprint goals and unblock deliverables
• Built React + TypeScript components with Vite, configured route aliases and environment variables
• Developed custom hooks for CRUD operations, isolating business logic for maintainability
• Designed responsive UIs with Tailwind CSS
• Maintained code quality with ESLint + Prettier; led Pull Request reviews under GitFlow
Key Achievements:
• Reduced development blockers by 30% through proactive coordination and cross-team workshops

- LandingPage – Andrea Dorado · Front-end Developer

Buenos Aires, Argentina — July 2025 – August 2025

• Built professional landing page optimized for SEO and Core Web Vitals
• Implemented meta tags, canonical, and hreflang for accessibility and performance
• Configured Vite + React + Tailwind CSS with reusable responsive components
• Optimized loading speed with WebP images and compression techniques
• Deployed on Vercel with custom domain and SSL integration
Key Achievements:
• Achieved Google ranking improvements with keyword strategy
• PageSpeed desktop score improved from 74 to 97

- Tienda Fitness – Pedro Lamanna · Full Stack Web Developer

Buenos Aires, Argentina — January 2025 – March 2025

• Developed full-stack web applications with React.js and Node.js
• Built and consumed RESTful APIs for frontend-backend communication
• Implemented authentication and security using JWT and bcrypt
• Integrated MongoDB for dynamic data management
• Built dynamic and responsive interfaces with React and Framer Motion

Education

Universidad Tecnológica Nacional (UTN) – Systems Engineering

Buenos Aires, Argentina — Expected Graduation: 2029

Instituto de Formación Técnica Superior N°29 – Software Development
